I'm missing how the letter says that they can self-implement the remedy. I read it as a completion of the RI/FS process, but not anything on RA implementation. Also, where does it say what the remedy will be? Is that in their FS document? Did you already send the FS?

Just the letter dated 10/2/12 I sent you earlier today.

Is there something that memorializes the approval to move forward with the work as self implementing?

They submitted a draft RAP, it was not approved. We tried to negotiate an AOC for RD/RA and they would not enter into the agreement. They have been submitting documents, such as the cap installation, methane control and operation and maintenance documents, not seeking agency approval.

These seem to cover the RI/FS phase. What about remedy implementation?

Guys,

Could you send me copies of any remedy selection documents and any enforcement/implementation agreement documents?

Thanks,

Michael
